Payment - Thank You	-141.20
Balance Forward	\$0.00

October tip: Fall into great energy use habits this autumn by investing in a smart thermostat. Heating and cooling accounts for 40-50 percent of home energy use. Though smart thermostats can be costly up front, these responsive and programmable devices don't waste energy heating or cooling an empty house, which can significantly reduce your energy bills. With savings like that, many thermostats pay for themselves in two years or less.

Service Dates: 09/13/2017 - 10/12/2017
